September 25, 1996

TO: Minerals File

FROM: Lynn Kunzler, Reclamation Specialist 

RE: Site Inspection, Western Clay Company, Limestone Quarry, M/041/004, Sevier County, Utah

Date of Inspection: September 11, 1996  
Time of Inspection: 11:30 a.m.  
Conditions: Mostly cloudy  
Participants: Lynn Kunzler, DOGM

Purpose of Inspection: To document current site conditions

This site appears to have disturbed approximately ten acres. There is no activity going on this site. There is a loader in one area where it appears they may be pulling material off the stockpile. Most of the pit areas and banks have a good growth of halogeton and russian thistle. This site looks stable. Several pictures were taken to document the site condition.
